

INES IN: NOT ENOUGH TIME

Majestic Walkthrough for Cool People Who Got Stuck

(read at your own risk and peril)

When given control talk to UNCLE LEE (optional).

Take the REALITY-FIXING DEVICE from the plant and give it to UNCLE LEE. He will disappear, leaving the TEMPORAL NAVIGATOR on the driver's seat. Pick it up. Now you can travel through time.

Use the TEMPORAL NAVIGATOR and select THE FUTURE.

Talk to the hologram and ask for help. Insert the REALITY-FIXING DEVICE in the hatch when asked to do so. The HOLEEGRAM will tell you that in order to be able to fix the REALITY-FIXING DEVICE he will need the gold COIN behind the force field and a MAGNET.

Go to the nineties.

Speak to the COLLECTOR, she wants an extremely rare record of her favorite band. Ask her if she collects magnets and you will get to know that magnets are an important component of guitars. Try to get to the back of the van, she will stop you.

Go to the sixties.

Speak to the MUSICIANS OF LOW MORAL FIBER. Ask them about the MAGNETS. They don't know that they have what you're searching for. Ask them a second time and Ines will tell them that guitars contain magnets. They will agree to give you a guitar if you can find their lost PICK.

Go to the nineties.

You will see that the COLLECTOR is giving you her back, noticing you only when you move. Try to pick up the TAPE RECORDER from the shelf. She will stop you. Do not move and warp to any other time. Warp back to the nineties. You will find yourself in the right position to pick up the TAPE RECORDER without being noticed. Take it.

Go to the sixties.

Use the TAPE RECORDER on the musicians. Ask them if they are working on a song. They will play for you and Ines will record their performance. Now you have the CASSETTE TAPE. You can try to give it to the COLLECTOR in the nineties but she will not accept it because it looks too new.

Put the CASSETTE TAPE in the glove compartment on the right then warp to any other future time. Open the glove compartment and you will find the AGED CASSETTE TAPE.

Go to the nineties.

Give the AGED CASSETTE TAPE to the COLLECTOR. She is now totally distracted and you can access to the back of the van. Observe the poster and Ines will notice the PICK. Click on it to... pick it up. Stay near the poster and warp to the future. You will find yourself on the other side of the force field. Now you can take the COIN.

Go to the sixties.

Give the PICK to the musicians. They will be happy to give you a GUITAR, from which Ines will be happy to "extract" the MAGNETIC PICKUP.

Go to the future.

Put the COIN and the MAGNETIC PICKUP in the hatch. You will finally get the working REALITY-FIXING DEVICE. Use it. You will discover that you can't use the device unless you fix an inconsistency in the timeline. Ask the HOLEEGRAM about the nature of the inconsistency to receive a hint.

Go to the nineties.

Use the REALITY-FIXING DEVICE with the plant.
